

1220B: A/V System control

To start, push “**ON**” button for two seconds. The projection screen should automatically lower. Choose your source; if you are trying to project from a laptop please select **PC**. Cable with audio plug is provided.

ROOM LINK when selected disables the audio system in 1220B. **AUTO IMAGE** will resync to your video source

PLEASE turn off the system when done by pushing the **OFF** button for **two seconds**.
