

Biochemistry Colloquium

Seminars begin at 3:00PM

Contact cpeterson7@wisc.edu for an invite

DATE	SPEAKER	TITLE	HOST
09/13	Kerwyn Huang Stanford	<i>Assembly Principles and Macroecological Properties of Microbial Communities</i>	Venturelli
09/20	Cheryl Arrowsmith Univ. of Toronto	Bertics Lecture CANCELLED	Lewis
09/27	Anil Bhushan UCSF	<i>Tuning the Immune Response to Senescent Cells</i> Register here: go.wisc.edu/8uq6yc	Engin
10/04	Lance Davidson Univ. of Pittsburgh	<i>Lessons from the Embryo: How Effectors are Coordinated with Mechanics During Tissue Self-Assembly</i>	Sheets
10/11	Matthew Bogoy Stanford	<i>Chemical Probes for Hydrolytic Enzymes: Applications for Cancer and Infectious Diseases</i>	Weeks
11/02	Margaret Werner-Washburne Univ. of New Mexico	Everson lecture: <i>What Thermodynamics Taught Me About Diversity & Inclusion</i> *VIRTUAL*	Simcox
11/08	Darleen Sandoval UC-Denver	<i>GLP-1 as a critical link in immunometabolism</i>	Merrins
11/15	Huilin Li Van Andel Institut	<i>Understanding Eukaryotic DNA Replication One Molecule and One Step at a Time</i> *VIRTUAL*	Sussman
11/22	Vatsan Raman UW-Madison	<i>Deciphering the Molecular Code of Bacteriophage-host Interactions by Deep Mutational Scanning</i>	Landick
11/29	Yifan Cheng UCSF	<i>Single Particle Cryo-EM, and a Story During the COVID-19 Pandemic</i>	Grant
12/06	Alan Saltiel UCSD	<i>New Insights into Regulating Energy Metabolism in Health and Disease</i>	Attie
12/13	Mark Denison Vanderbilt	<i>Coronavirus Novel Replicase Functions and Targets for Antivirals</i>	Kirchdoerfer

The Lecture Series is sponsored by the Harry Steenbock Lecture Fund. Contact host to speak with visitor.

Seminars in Ebling Symposium Center, MSB, 1550 Linden Drive (*unless noted)
